

2011 World Youth Archery Championship

2011 Senior Compound Men's World Champion, Chris Perkins led a strong team of 18 young Canadian archers to the 2011 World Youth Archery Championship in Legnica, Poland, August 22-28. Canada's young archers competed well and gained valuable international experience. This bodes well for the future for these young, up-and-coming archers.

The highlight for our Canadian Team was the Junior Men's Compound Team, comprised of Chris Perkins, Mike Kupchanko and Keenan Brown, standing atop the podium as they were presented the gold medal. In the gold medal match against the team from the Netherlands, the Canadian Team not only displayed great shooting but also true sportsmanship. A member of the Netherlands team had to be hospitalized for a minor injury prior to the start of the match. Rather than accept the gold medal by forfeit, the Canadian Team requested a delay in the match until the Netherlands team was complete and then shot the match at the end of the competition. A fine example of sportsmanship!
